# Testimonials

**First of all, to understand how much impact this online test platform and online learning platform has made so far to our students, please look into few candid testimonials (especially the underline statements) as given by the students and their parents/guardians.**

# Statement from Mr. Aniruddha Nag

*“Entrance exam preparation is an industry now, with its market spread across all corners of the country. The aspirants are in abundance, and ready to put in effort and money to get into institutes. There are books to learn, but there are not enough tools to evaluate the preparation level. Existing methods are full of redundant exercises and often not very effective. With the advance of software techniques, this hurdle can be tackled in a much more sophisticated way and that is where KonarClasses come in. The founders have used their academic and software background in a novel way so that preparation is automated and measurable. Not only that, they can track individual candidates for all their previous mistakes and randomly recheck those. For most Indian cities with full of traffic problems, they offer a full test platform from the comfort of home, which is quite exhaustive for all the subjects. There are levels of exams which help in building the confidence slowly and surely, with the facility of evaluation. Past results are always available for review. All these come at a cost which is not prohibitive. I sincerely believe that this is very useful for all the aspirants.”*

Above statement is from Mr. Aniruddha Nag, Director, R&D at Synopsys Inc. Both his son and daughter, students of FRANK ANTHONY PUBLIC SCHOOL took online test platform from KonarClasses for their preparation for board examination, IITJEE, K-CET and other engineering entrance examinations.

# Statement from Mrs. BN Jayasimha

*“Respected sir, I am extremely satisfied with your way of teaching to your students. I am happy about my daughter Ananya Jayasimha's progress. KonarClasses and their faculties have done wonderful job and I would not mind sharing my experience with others and would in fact suggest others to take help from your classes. The online test platform is a wonder creation as it keep the students on their toes and well prepared for the exams. Thank you Ujjwal sir. Your sincerely, Brunda”*

Above statement is from Mrs. BN Jayasimha. Her daughter, Ananya Jayasimha, a student of Sri Kumarans Children's Home takes NTSE and Foundation for Engineering and Medical coaching from KonarClasses in her Class-X. She uses online test platform and online learning platform KonarClasses assisted with Artificial Intelligence, Machine Learning and Data Analytics.

# Statement from Asha Subramanian

*“Konar Classes has been an extremely useful learning experience for my son Prahalaad. The combination of personal class room one-one coaching and online classes allows him to manage his time efficiently while not losing out on the essential personal interactions. The emphasis on DPPs (Daily Practice Problems) keep him on his toes and have instilled a sense of discipline toward regular practice. The small classroom size ensures adequate personal attention to all the students. Most importantly, the online test platform provides the students with an exhaustive list of practice questions and a formal mechanism to monitor progress of the student. We are hopeful that KonarClasses comprehensive coaching will prepare our child to approach entrance tests with confidence.”*

Above statement is from Asha Subramanian, a notable scholar and alumni from ISI, Kolkata. Her son, Prahalaad Varahaswami, a student of The Brigade School, JP Nagar, Bengaluru takes Engineering entrance coaching along with board examination from KonarClasses. He uses online test platform and online learning platform KonarClasses assisted with Artificial Intelligence, Machine Learning and Data Analytics.

# Statement from Mr. Mayank Srivastav

*“Respected sir, We are parents of Kumarans class 10th student. We were in look out for classes which can help our child not only for 10th but beyond 10th content, so that he can get ample of exposure and right approach for cracking other competitive exams as well. While searching we came across konark classes. We were impressed with the way Mr Ujjwal has designed the whole both online and offline courses to offer the best to students. His personal connect with all his students is highly appreciable. There are few things which differentiate KonarClasses from the rest: (1) Konark sir's command on the subjects which build confidence and respect in students mind. (2) Way of teaching - online and offline. He takes classes even online apart from offline as and when required. (3) Comprehensive Online testing platform with all possible types of questions a student can come across and levels of tests. (4) Evaluation mechanism and feedback process. KonarClasses are quite prompt and revert the students with their detailed paper analysis and scope of improvement which is definitely helpful in improvements in child's approach. Best wishes, Mayank Srivastav”*

Above statement is from Mr. Mayank Srivastav. His son, Aryan Srivatsav, a student of Sri Kumarans Children's Home takes NTSE and Foundation for Engineering and Medical coaching from KonarClasses in his Class-X. He uses online test platform and online learning platform KonarClasses assisted with Artificial Intelligence, Machine Learning and Data Analytics.

# Statement from Kusuma Jagadish

*“As a parent I am very happy to find a teacher like Mr Ujjwal Konar. He is very proactive and student friendly. He is very good at motivating students to give their best motivating the students to give their best. He is available at any point of the time to clear their doubts. He himself being an engineer from an esteemed institute like IIT, by making use of advanced technology to be accessible to the students round the clock. Mr Ujjwal Konar uploads the questions, exercises and question papers on his website on regular basis by which students can access at their convenient time at home and they can solve the question at their convenient time as well and upload their scan copy of answers to the same website, which will be corrected by the best teachers and they also suggest the most ideal answers. This can be downloaded by the students to understand the mistake done by them and to prepare with best suggested answers by the teachers. Along with this any other doubts in between can always be discussed with students by online, which saves a lot of travelling time and also the doubts can be cleared as and when required. As a whole I would say the best teaching experiences and commitment are delivered to the students with the use of advanced technology, which really saves the time to the student and allow them to make use of this teaching at their convenient time. I find this appropriately structured and well organised teaching program definitely helping the student to give their best in both NTSE and Board exams as well. Thank you Regards, Kusuma NN”*

Above statement is from Mrs. Avani Kalyani. Her son, Mohnish Gowda, a student of Sri Kumarans Children's Home takes NTSE and Foundation for Engineering and Medical coaching from KonarClasses in his Class-X. He uses online test platform and online learning platform KonarClasses assisted with Artificial Intelligence, Machine Learning and Data Analytics.

# Statement from Mrs. Avani Kalyani

*“Dear Ujjwal Sir, Greetings of the season! One fine afternoon, some anonymous text message came about test preparation for NTSE at KonarClasses. We thought of exploring it further as we truly were wanting our daughter, Simoni to do better in NTSE. And that was the beginning of our association with you sir! The first couple of classes that we attended, we were convinced of your passion, success of your students. The emphasis given on clearing the fundamentals is appreciated and liked by your students most. It's the philosophy of correcting, what made your student go wrong which led to clear the concepts. **It is these differentiation in your teaching method, places you in unique quadrant! It is rigor with which you pursue and follow through test, self learning tasks and exercises with your students is contagious.** That energy level made my daughter realize her responsibilities. NTSE teaching and experience made us extend and continue with you for the preparation of class 10 post, November. **The test cycles and it's evaluation, feedback sessions comes pretty much back to back.. The online platform augurs well in the overall scheme of things. The strong network of faculties that you have is visible.** Overall it has been great being associated with you. Thanks & regards,-- Avani.”*

Above statement is from Mrs. Avani Kalyani. Her daughter, Simoni Kalyani, a student of Sri Kumarans Children's Home takes NTSE and Foundation for Engineering and Medical coaching from KonarClasses in her Class-X. She uses online test platform and online learning platform KonarClasses assisted with Artificial Intelligence, Machine Learning and Data Analytics.

## Message from Ujjwal Konar (known as Konar-Sir among students), founder of KonarClasses

Greetings from KonarClasses! A truly world-class coaching institute for different engineering and medical entrance examinations in India including IITJEE (main and advanced) and NEET etc.

To help students realize their potential is the mission and purpose of our coaching. Our coaching is not defined by our name or status, it is defined by the way student is satisfied when (s)he takes lessons from us.

First of all, to understand what kind of impact we have made so far to our students, please have a look into the candid testimonials as provided by our students and their parents/guardians. To go through the testimonials, view or download the PDF file [here](#).

### Liquid-Vapour Equilibrium

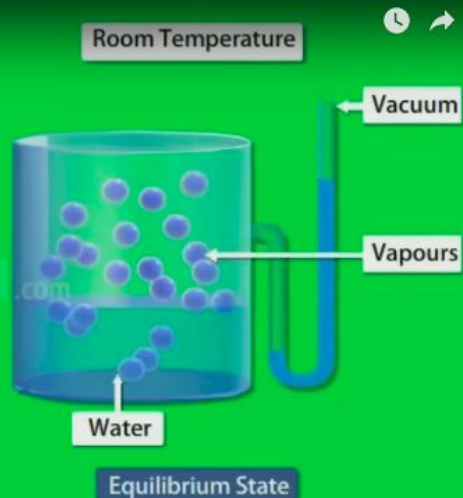

To understand this equilibrium, let us take an example of evaporation of water in a closed vessel.

When a small amount of water is taken in an evacuated vessel at room temperature it starts evaporating.

At first the pressure inside the vessel increases, As the number of molecules in gas phase increases it strikes the water surface and it gets captured. This is called condensation.

The rate of condensation is less than rate of evaporation in beginning but with increase in molecules of gas phase the rate of condensation increases and it becomes equal to the rate of evaporation. At this state the equilibrium is said to be established.

Chapter 6

APPLICATION OF DERIVATIVES

❖ *With the Calculus as a key, Mathematics can be successfully applied to the explanation of the course of Nature.* — WHITEHEAD ❖

6.1 Introduction

In Chapter 5, we have learnt how to find derivative of composite functions, inverse trigonometric functions, implicit functions, exponential functions and logarithmic functions. In this chapter, we will study applications of the derivative in various disciplines, e.g., in engineering, science, social science, and many other fields. For instance, we will learn how the derivative can be used (i) to determine rate of change of quantities, (ii) to find the equations of tangent and normal to a curve at a point, (iii) to find turning points on the graph of a function which in turn will help us to locate points at which largest or smallest value (locally) of a function occurs. We will also use derivative to find intervals on which a function is increasing or decreasing. Finally, we use the derivative to find approximate value of certain quantities.

6.2 Rate of Change of Quantities
